EDUCATION

AVAILABLE TO JOIN FROM AUGUST 2026

Bachelor of Technology (B.Tech) – Information Technology
Chaudhary Charan Singh University, Meerut

Final Year
CGPA: 8

PROFILE SUMMARY

Full Stack Developer (MERN Stack) and B.Tech Information Technology student actively building full-stack web applications using React, Node.js, Express.js, and MongoDB. Seeking a Web Development Internship to apply frontend and backend development skills in real-world applications.

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Database Management Systems
- Object Oriented Programming
- Web Technologies
- Software Engineering
- Operating Systems

INTERNSHIP EXPERIENCE

Banaras Locomotive Works (Indian Railways)

July 2025

Technical Intern

- Worked with Locomotive Tracking Software (LTS) to monitor locomotive maintenance records.
- Assisted in Electronic Data Processing (EDP), report preparation, and structured data handling.
- Collaborated with technical staff to understand industrial software workflows and documentation.

PROJECTS

Wanderlust – Full Stack Web Application (Node.js, Express.js, MongoDB, EJS)

Live | GitHub

- Built a full-stack web application using Node.js, Express.js, MongoDB, and EJS.
- Implemented CRUD functionality, server-side form validation, and MVC architecture.
- Designed database schemas and relationships using Mongoose.
- Used Git branching for feature development and testing.

ZoomApp – Real-Time Video Conferencing Application (React, Node.js, WebRTC)

Live | GitHub

- Developed a real-time video conferencing application using WebRTC and Socket.IO.
- Implemented secure authentication using Bcrypt and Crypto.
- Built frontend with React and integrated APIs using Axios.

Zerodha Clone – React Trading Interface

Live | GitHub

- Developed a responsive trading dashboard using React, Bootstrap, and Material UI.
- Implemented component-based architecture and React Hooks.
- Integrated stock APIs to fetch real-time financial data.

Personal Portfolio Website

Portfolio | GitHub

- Designed and deployed a personal developer portfolio showcasing projects and technical skills.

TECHNICAL SKILLS

Languages: JavaScript, Java, SQL

Frontend: HTML, CSS, Bootstrap, React.js, Material UI

Backend: Node.js, Express.js, REST APIs, Socket.IO

Databases: MongoDB, SQL

Tools & Concepts: Git, GitHub, MVC Architecture, CRUD Operations, API Integration

CERTIFICATIONS & LEARNING

- Learned JavaScript and React through official documentation and hands-on projects.
- Built multiple MERN stack projects to understand full-stack web development.

ACHIEVEMENTS

- Practiced Data Structures and Algorithms using Java and applied concepts in problem solving.

INTERESTS

Building full-stack web applications and exploring modern JavaScript frameworks.
